Dear Students,

Applications for Advanced Technology Attachment Programme (ATAP) Jan – June 2019 is NOW OPEN until 16 Nov 2018!

You may apply for ATAP via the NUS TalentConnect Portal:

**Internship Application Process through NUS TalentConnect portal:**
- Step 1: Log on to the NUS TalentConnect Portal
- Step 2: Go to the Jobs & Internships > Discover Jobs & Internships

- Step 3: Please click on See all jobs to retrieve the list of jobs & internships opportunities.

- Step 4: At the ‘Position Type’ field, select ‘Computing Internships’ and click ‘Apply’.

The list of computing internship opportunities will be listed on the page.
Please note the following:

- Students will be contacted by the employers directly if they are shortlisted for interviews.
- Students should take note that some companies may have restrictions for certain internship positions, including that the student must be a Singapore citizen. In such cases, only students who meet the special requirement will be able to view the project details.
- All internship offers by employers will be made through the NUS TalentConnect portal. Thereafter, students have up to 7 calendar days to respond before these offers are withdrawn by the system.
- Students MUST accept their offers via the NUS TalentConnect portal to be qualified/approved for internships.
- On acceptance of a project, no changes will be entertained.

For references on how to navigate the portal, you may access the user guide from ‘Resource > Document Library’.

The following categories of students are not allowed to register for ATAP:

- Students who are doing UROP (CP3208 and CP3209)
- Students doing CP4101 BComp Dissertation / BT4101 BSc. Dissertation [also known as Final Year Project (FYP)]. Students are not allowed to concurrently do FYP with ATAP. Conversion of ATAP related work to FYP is not permitted, irrespective of how good the ATAP-work is.

Additional Notes:
The minimum period for ATAP is 24 weeks.

Students who are already on ATAP are not allowed to reduce its duration to turn it into a SIP attachment. They must serve their internship for 24 weeks within the same organisation.

Students who do not need credits and do internship on their own during regular term time are required to apply for Leave of Absence (LOA). Please refer to the Registrar’s Office website for more information.

CEG students should follow the internship guidelines for CEG students as specified here.

Students are to consider carefully, taking into account their study plans before they accept any offer because any withdrawal after acceptance is not acceptable and will result in them getting the CU grade reflected on their transcripts.

Year 4 students in their graduating semester who need to complete ATAP in Semester II (Jan-June) should take special note of the module arrangement as specified in the ATAP website. IMPORTANT: Please let us know of your intention at the point of your application.

Students who had secured their own internships and wish to convert it into ATAP may refer to the procedure in the ATAP website.

Students who are on ATAP are eligible to take a maximum of 2 modules (day or night) subject to the company’s and the module lecturer’s approvals.

Should you not be able to secure an internship by 5 Dec 2018 or if you have any queries, please email us at SoCfamily@comp.nus.edu.sg.

You may refer to the ATAP website for further information.

Thank you.
Best regards,
Arifah
