Dear Students,

Application for Advanced Technology Attachment Programme (ATAP) January – June 2016 is open!

There will be two rounds of applications:
Round 1: 17 August – 29 August 2015
Round 2: 12 October – 16 October 2015

Aside from Industry experience, you will be given a recommended minimum allowance of S$1,000 per month!

You may apply for ATAP via https://mysoc.nus.edu.sg/~projadm/ and select up to four proposals. You may refer to the attached pdf for steps to apply in PAS.

For more information on ATAP, please refer to:
ATAP: http://www.comp.nus.edu.sg/undergraduates/beyond_atap_students.html

Conversion of self-initiated internship into ATAP/SIP:
* A minimum period of 24 weeks for ATAP is required for conversion.
* NO retrospective approval will be given for conversion of self-initiated internship into ATAP/SIP.
* Deadline for conversion is 20th November 2015 and no extension will be granted.
* All approvals must be sought for prior embarking on any self-initiated ATAP if you wish to earn credits.

Please take note of the following:
1. Students in their graduating semester are not allowed into ATAP.
2. You are not allowed to take any modules in the special term while under ATAP.
3. Students who are doing UROP (CP3208 and CP3209) are not eligible for ATAP.
4. Students cannot concurrently do CP4101 Final Year Project (FYP) or CS4349 Game Research Project (for CM students in the Concurrent Programme in Interactive Digital Media) with ATAP. Conversion of ATAP related work to FYP/CS4349 is not permitted, irrespective of how good the ATAP-work is.
5. Students who are already on ATAP are not allowed to reduce its duration to turn it into a SIP attachment. They must serve their internship for 24 weeks within the same organisation.
6. CEG students should follow the internship guidelines for CEG students. Please refer to http://www.ceg.nus.edu.sg/ia/

While CEG students may apply for internship via either IAP/VIP (FoE) or ATAP/SIP (SoC), please do NOT apply both sides (then decide on the ‘preferred’ offer) - it does not leave a positive impression (to reject an offer). Also, it will affect another applicant's chance.
Students who are on ATAP are eligible to take a maximum of 2 modules (day or night) subject to the company’s discretion and the module coordinator’s approvals.

You may email Ms Nur Arifah should you have any clarifications, Thank You.

Best regards,
Arifah
