This email is meant for CEG1 students of AY2010/11 intake. <CEG2 poly students may ignore the message.>

Dear Students

Further to NOTE 1 below, the grouping list is already available; please check. If any module (which is supposed to be pre-allocated) is still missing by 30 July 2010, please let me/OUP know.

There have been some changes to the arrangement for CG1101 tutorial and lab. As the cap on class size differs (lower than that of MA1505 and PC1432), CG1101 tutorial and lab will NOT be allocated. Please ballot for both slots in iteration 1. Point 4 is amended (in green) as follows:

4. Tutorial and Lab Groups Registration

Tutorial for MA1505 will be allocated. There are no lab sessions for MA1505.

Tutorial & lab sessions for PC1432 will be allocated; Tutorial & lab sessions for CG1101 will be allocated. For CG1101, please ballot for your tutorial AND lab group in CORS during iteration 1 (10 – 13 August).

Please check your allocated slots (MA1505 and PC1432) at http://www.eng.nus.edu.sg/ugrad/schedule1011-Sem1.htm under Group C (i.e. C02- C07). The CG1101 tutorial and lab slots reflected would NOT be allocated; you may use it as a guide during balloting.

For CS1231, please ballot for your tutorial in CORS during iteration 2 (13 – 20 August); there are no lab sessions for CS1231.

Please let me know if you have any queries. Please use your NUSNET email for official correspondences and include your student number.

Regards
Winnie

standard dropping policy applies. You are strongly advised to manage your timetable well and complete ES1102 in the current semester. (This is especially for CEG students as you are required to take CG1413 next semester; the module is offered only in semester 2 and ES1102 is part of the pre-requisite for CG1413.) Please refer to http://www.ceg.nus.edu.sg/Students/first_year.html for the ES1102 slots available for CEG students’ bidding.

**NOTE 3:** 'A' level students without 'A' level Physics (or equivalent) are required to take two bridging modules, PC1221 and PC1222, in Semester 1 (which will be pre-allocated by OUP); please email me to highlight this (no 'A' level Physics or equivalent) if you have not done so.
